

### TECHNISCHE DATEN

Connection :	G 1/4"
Nominal width:	7 mm
Nominal flow:	1.250 l/min
Working pressure:	2...10 bar
Switch time with 6 bar :	13/16 ms
Temperature range:	-5 °C . . . +60 °C
Standard voltage:	24V DC
Power consumption:	AC = 5 VA / DC = 4,8 W
Medium :	filtered, oiled or filtered not oiled air pressure
Protective kind:	IP 65 acc.to DIN 40050

Materials : Frame Al anodised, inner parts Ms and plastic, stainless steel slide, seals NBR

### Design and function

Piston valve  
 Exhaust air can be throttled  
 Hand activity is resting
