

Stainless steel

TECHNICAL DATA

Construction: 1-way angle seat valve, pneumatically controlled
 Control function: Normally opened in flow direction
 Spring-return opening - Pneumatic closing
 Connection thread: According to DIN EN ISO 228-1
 Operating temperature: -10°C to +180°C, pressure-dependent
 Ambient temperature: -10°C to max. +60°C
 Operating pressure: max. 16 bar
 Control pressure: 3 bar–10 bar
 Control air connection: G 1/8" / G 1/4"

Valve body: Edelstahl 1.4408
 Piston housing: Edelstahl 1.4308
 Stem: Edelstahl 1.4408
 Seal material: PTFE / RTFE
 Stem seal: PTFE / FKM
 Piston seal: FKM / NBR

OPEN

CLOSED

Connecting thread female/female
